square strip + antidot: transmission
square strip + antidot: transmission eigenvalues
square strip + antidot: lead momenta and velocities
disordered graphene, zigzag leads: transmission
disordered graphene, zigzag leads: transmission eigenvalues
Rashba strip: spin-resolved transmission blocks
Haldane: band energies (400 k-points)
Haldane: Chern numbers (raw values, 60x60 mesh)
Haldane: Berry phases along k1 (mod 2 pi)
Haldane: quantum metric (finite differences)
Haldane: Berry curvature (finite differences)
Kane-Mele: band energies (400 k-points)
Kane-Mele: hybrid Wannier centres (mod 1)
